The City of Avondale evaluates its programs on an on-going basis to identify strategies that would improve the quality and efficiency of the programs offered. While adjustments have been made to the administrative processes (updated marketing materials, updated application processes), the City has not identified any necessary changes and all current CPD grant funded programs continue to progress and have proven to be successful.

The City of Avondale targets its

The City of Avondale's Analysis to Impediments to Fair Housing Choice, which was completed at the time of the City's 5-year planning cycle (2010), identified the following areas of concern which may be occurring in Avondale:

- Illegal housing discrimination.
- The public is not sufficiently aware of fair housing rights and resources.
- The need for more effective AFFH strategies.
- Increase collaboration among city departments regarding FH strategies and goals.
- Decrease the disparities in home mortgage lending.
- Prevent NIMBYism.
- Formalize monitoring, evaluation and data collection of FH Activities.

The City accomplished and/or engaged in the following activities to overcome the effects of the above listed impediments (see Appendices for documentation of fair housing activities):

- Distributed fair housing literature at various city locations and at various city events
- Facilitated fair housing workshop and provided AZDRE credits to housing professionals in attendance

- Requested testing be done of realtors in the area – results pending
- Increased collaboration/awareness of FH goals and strategies within other city departments
- Published a Fair Housing display ad in the West Valley View

These resources directly leveraged the Community Action Program, Youth Development Programs and the Contributions Assistance Program by adding the ability to offer weatherization, financial assistance, expansion and implementation of special programming to meet the human service needs of Avondale residents.

Managing the Process

1. Describe actions taken during the last year to ensure compliance with program and comprehensive planning requirements.

Program Year 3 CAPER Managing the Process response:

The City of Avondale manages its CDBG program utilizing a systematic approach. Activities considered during the consolidated planning process are tested for adherence to 24 CFR Part 570.208 with respect to meeting one of the following national objectives: 1) Benefit to Low-Income; 2) Elimination of Slum and Blight; and 3) Urgent Need. For Avondale all activities meet the low-income benefit objective. The eligibility of all activities is verified pursuant to 24 CFR 570.201. Final selection of CDBG activities is accomplished through the public participation process and requirements outlined in 24 CFR Part 570.486. Once a list of proposed activities is developed City staff obtains citizen comment in a series of public forums at least

one of which is a formal public hearing. Following public input City staff makes a final recommendation to the City Council which in turn makes the final decision on the use of CDBG funds in a subsequent public hearing. Special efforts are made to include low-income persons, minorities and non-English speaking persons, as well as persons with disabilities.

Activities are carried out either by city staff or by private non-profit organizations that enter into a formal contract with the City which specifies all local, state and federal regulations with which the agency must comply. Each contract contains performance criteria which defines the minimum progress each agency must make to remain in compliance with the contract. Progress reports are required on a regular basis to assist in determining the agencies overall performance. Monitoring of the agencies is performed to ensure all regulatory and contractual requirements are being met. If deficiencies are discovered, they are dealt with immediately and technical assistance is provided to bring the agency into full compliance. Should the agency be unable or unwilling to comply with the regulations and performance criteria outlined in the contract, the City would exercise its right to invoke the remediation and/or termination clause of the contract.

The only funding source requiring match used by the City of Avondale are HOME funds received through the Maricopa County HOME consortium. Matching requirements are met by both private and city general funds.

Citizen Participation

1. Provide a summary of citizen comments.
2. In addition, the performance report provided to citizens must identify the Federal funds made available for furthering the objectives of the Consolidated Plan. For each formula grant program, the grantee shall identify the total amount of funds available (including estimated program income), the total amount of funds committed during the reporting period, the total amount expended during the reporting period, and the geographic distribution and location of expenditures. Jurisdictions are encouraged to include maps in describing the geographic distribution and location of investment (including areas of minority concentration). The geographic distribution and expenditure requirement may also be satisfied by specifying the census tracts where expenditures were concentrated.

*Please note that Citizen Comments and Responses may be included as additional files within the CPMP Tool.

Program Year 3 CAPER Citizen Participation response:

A draft of the CAPER was posted on the City of Avondale website at www.avondale.org which provided details and contact information for the 15-day comment period which ran from September 3, 2013 to September 19, 2013. Institutional Structure

1. Describe actions taken during the last year to overcome gaps in institutional structures and enhance coordination.

Program Year 3 CAPER Institutional Structure response:

The CDBG program is administered within the Neighborhood and Family Services Department (NFSD) of the City of Avondale. To overcome gaps in institutional structure the NFSD cooperates with other city departments essential to the administration of the CDBG program to ensure awareness of performance and compliance requirements. NFSD ensures that adequate public participation is obtained during program development and implementation. The NFSD relies on local non-profit organizations, advisory boards, planning commissions and City Council meetings to inform the public of the Consolidated and Annual Action Planning process.

The Neighborhood and Family Services Commission (NFSC) is the City advisory board to the NFSD for the implementation of the CDBG program. NFSD staff meets with the commission once per month.

The NFSD was actively involved with following organizations during the program year.

- a. The Neighborhood and Family Services Commission
- b. Maricopa County Human Services Department
- c. Arizona Department of Housing
- d. Neighborhood Housing Services
- e. Foundation for Senior Living (FSL)

Monitoring

1. Describe how and the frequency with which you monitored your activities.
2. Describe the results of your monitoring including any improvements.

Program Year 3 CAPER Monitoring response:

The City of Avondale systematically monitors all CDBG funded activities to ensure sufficient progress is being made and to ensure compliance with applicable federal, state and local regulations. The City enters into contracts with local non-profit agencies to conduct its CDBG and HOME funded activities. Each sub-recipient and contractor is required to submit reports detailing their progress in meeting the performance criteria outlined in their contracts. The City assesses progress also by monitoring pay requests to ensure that the amount of funds being drawn down is proportionate to scheduled progress. On-site monitoring visits are conducted to ensure that sub-recipients are complying with the contract as well as all local, state and federal regulations. Sub-recipient files are thoroughly reviewed to ensure that compliance with rules has been adequately documented. Office space is inspected to ensure that it is accessible and that information related to fair housing and equal opportunity is clearly posted. The monitoring improves the performance of the sub-recipient and overall effectiveness of the program.

The City monitored the following agencies and activities with the following results:

Agency Monitoring Results		
Agency	Funding Source	Outcome
Foundation for Senior Living – Single Family Housing Rehabilitation	CDBG, HOME and ADOH	No findings or concerns. Performing well.

3. Self-Evaluation
 - a. Describe the effect programs have in solving neighborhood and community problems.
 - b. Describe progress in meeting priority needs and specific objectives and help make community’s vision of the future a reality.
 - c. Describe how you provided decent housing and a suitable living environment and expanded economic opportunity principally for low and moderate-income persons.
 - d. Indicate any activities falling behind schedule.

- e. Describe how activities and strategies made an impact on identified needs.
- f. Identify indicators that would best describe the results.
- g. Identify barriers that had a negative impact on fulfilling the strategies and overall vision.
- h. Identify whether major goals are on target and discuss reasons for those that are not on target.
- i. Identify any adjustments or improvements to strategies and activities that might meet your needs more effectively.

The City continues its efforts to rebuild the physical infrastructure of its low-moderate income neighborhoods while addressing emergency and long-term community development and housing needs. HUD CPD funded programs, coupled with services provided through other means, enable the City to more holistically meet the needs of the low-moderate income community. This collaboration among various programs serves to more significantly impact the housing, health and human services needs of Avondale residents.

Through street and infrastructure reconstruction, whole neighborhoods are being revitalized resulting in an arrest of any further decline of the infrastructure and the provision of improved utilities. It is anticipated that new growth and area revitalization will be stimulated by these efforts.

Housing rehabilitation activities continue to preserve the largest supply of affordable housing in Avondale by improving the aesthetics of some of the City's oldest neighborhoods while making homes healthier and safer for residents and more conducive to personal and educational growth. Many of the homes that have been rehabilitated experience improved energy efficiency, resulting in lower utility costs for the homeowner and increased sustainability. While a significant need for this type of assistance remains, the program's success has resulted in the ability to obtain additional grant funding from the Arizona Department of Housing in two separate years and additional funding through the Maricopa County Weatherization program are leveraged every year for this purpose.

Public services, such as youth job education and job training programs are helping to break the cycle of poverty while developing a more skilled work force for the benefit of the local economy. Through the successful summer youth employment program, youth are provided training in the areas of finance, budgeting and work readiness skills. A paid work experience, in which they are exposed to various professions, is also provided and participants are encouraged to pursue post-secondary education and are offered tuition assistance for this purpose.

Homebuyer assistance has made it possible for families that would not otherwise have the means to achieve the long-term financial security and stability that comes from homeownership. Furthermore, homebuyer assistance is affirmatively furthering fair housing by allowing buyers more choice by strengthening their buying power and subsequently providing them the ability to purchase virtually anywhere within the city.

While much has been accomplished to overcome the barriers caused by poverty and progress has been made in fulfilling the strategies and goals identified in the consolidated plan, there remains much work to be done in these areas. Barriers to greater success within these objectives continue to be the following: 1) continued decline in property values; 2) high unemployment; and 3) Asset Poverty – the lack of homeownership, education, savings, credit, insurance protection and personal net worth.

Major goals are on target and significant progress toward meeting those goals was accomplished during this program year. Necessary improvements that would allow for the city to more effectively meet community needs continue to be a needed increase in non-profit capacity, grant acquisition and increased funding.

Lead-based Paint

1. Describe actions taken during the last year to evaluate and reduce lead-based paint hazards.

Program Year 3 CAPER Lead-based Paint response:

Through the City's Emergency and Substantial Home Rehabilitation programs, education and information regarding lead hazards is provided to homeowners. Lead testing and abatement is conducted as part of the rehabilitation programs as needed. In the last program year, approximately 16% of the homes tested positive for lead and required lead abatement to some degree. The City also disseminates information regarding lead hazards through non-rehabilitation activities, including the Community Action Program, and disseminates information at various city locations and events throughout the year.
